BOX CULVERT WIDENING ON NH ROUTE 107 IN KINGSTON
WILL REQUIRE SINGLE LANE TRAFFIC FOR 10 WEEKS

The New Hampshire Department of Transportation announces work is underway this week in Kingston on the widening of a box culvert over Little River on NH Route 107.

This project will require a lane closure and alternating one-way traffic for approximately ten weeks. A temporary traffic signal will be used to assist motorists through the work zone. Minor delays can be expected.
